OVERVIEW

SERKA QA GROUP is a global provider of infrastructure development, planning, design, construction, facility and operation management, life support services specialized in nations building and humanitarian projects.

For over 54 years, Serka QA has provided the US government and private clients with specialized construction, engineering, and project management services on 4 continents, 11 countries and we continue to grow.

Serka QA is currently running services, construction and facility management operations in USA, Turkey, Iraq, Oman, and Macedonia.

Today Serka QA has successfully completed vast amount of Base Operations Support, Operations and Maintenance, construction and civil engineering projects including but not limited to Airport Constructions, Camps, Buildings, Hotels, Housing,

Embassies, fuel distribution systems, pipelines, dams, hydropower plants, water treatment, storage and transmission systems, protected and hardened structures, and special constructions. With over 3,000 employees, Serka QA uses its global reach to support the DoD and DoS in U.S., Europe, Asia, and the Middle East on its military and humanitarian efforts. Serka QA's capabilities include full Base design, Facilities plans, Maintenance,

Renovation, Construction, Construction management, Material supply, Batch concrete and Rock aggregate, Port operations, Food service operations/management, Labor provision, Base support operations, Base support vehicles and equipment (BSVE), O&M and Environmental services.

Within the last 10 years Serka QA completed over 100 construction, services and facility management contracts worth over \$1.5 billion. The group has continuing strong requirements over the next 5 years being qualified for two huge US Government programs namely Non-permanent US Embassy Program (CHU IDIQ) and US Military Funding Program (MED – MATOC) with a value of \$12 billion and \$4 billion respectively.

Serka QA has a robust financial structure and recognized credibility among local and global financial houses including banks, investment banks, and insurance institutions. The group has annual revenue of \$250 million US\$ with assets of \$400 million. Serka QA has an outstanding bonding capacity ready to be utilized for future development projects.

Serka QA provides eco-friendly and safety-Oriented solutions and has been certified with 1,000,000 safe man-hours with no Lost Time Incidents in one contract alone. From start to finish, we utilize environmentally conscious resources.

We possess assurance certificates for quality control, health and safety, and the environment including: ISO 9001, ISO 14001, ISO 22000, and OSHA 18001. Serka QA brings the full extent of its global multi-disciplinary skills to assist any country with its rebuilding, growing, and prospering efforts.

- IRAQ

CAPABILITIES

If you are entering a new environment, no matter if it's dangerous or harsh environment, SERKA QA GROUP is there.

If your organization needs work force, Serka QA has the ability to recruit and deploy the work force you require.

Serka QA will help you providing basic life support services for your workforce as well, such as cleaning, laundry, food service and any other services you may require in your crew camp.

Serka QA has been providing similar services to the US Government, private companies and multinational organizations in the challenging environments.

Serka QA is very well known in the US government contracting industry to quickly, expeditiously, and swiftly respond to challenges in the most dangerous and challenging parts of the world with professional and technically skilled management and labor force, in remote locations with austere conditions, and then logistically support them in-theater. Serka QA has considerable life support, O&M, construction, and logistics experience in the Middle East, Europe, Africa and Afghanistan, supporting base operating services for camps on behalf of the U.S. Department of Defense (DoD), Department of State (DoS), NATO, commercial clients, and support United Nations peacekeeping contingents.

At Serka QA our prime goal on all of our contracts is to exemplify the many positive effects of a partnering atmosphere that Serka QA fosters with the U.S. Government agencies through our pursuit of excellence—combined with a focus on quality and cost effective service to once more deliver superior value.

Three hydro power plant investments, operational with a total installed power of 44MW. Wind power plant investment, operational with 44MW installed power. 200 million USD total energy investments up to date.

Project Name: Kiyıköy Wind Power Plant

Project Type: Design & Build

Project Location: Tekirdağ, Turkey

Owner/Agency: Beşiktepe Enerji Üretim ve Ticaret A.Ş.

Project Start: September 2014

Project End: November 2015

- 15 x Nordex N117 / 3000 KW
- 15 x 3 MW = 45 MWm / 44 MWe
- Production: 170.800.000 kWh (P50)
- 13 km access roads, 36 km underground MV cable and 25 km F/O cable work.
- 62,5/50 MVA Transformer Substation
- Capacity factor: %44

Project Name: Saray Hydroelectric Power Plant

Project Type: Design & Build & Operate

Project Location: Trabzon, Turkey

Owner/Agency: Mertler Energy A.S.

Project Start: September 2011

Project End: April 2014

- 350.000 m³ earthworks
- 4100 m, D= 5,30 m Drill and Blast Horseshoe Tunnel
- Yearly Production: 60.000.000 kWh
- Total Installed Capacity: 13,5 MW

Project Name: Gemciler Diversion Weir and Hydroelectric Power Plant

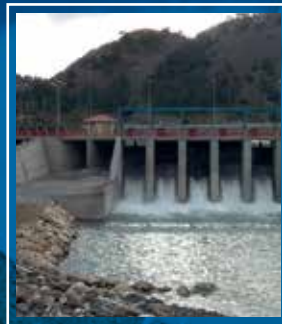

Project Type: Design & Build & Operate

Project Location: Adıyaman, Turkey

Owner/Agency: Boztepe Enerji Üretim Pazarlama A.S.

Project Start: January 2011

Project End: December 2012

- 1.500.000 m³ earthworks
- 20.000 Lm jet grout soil improvement
- Yearly Production: 40.000.000 kWh
- Transfer Type: 2371 m D=3,80m Cut & Cover Tunnel

Project Name: Incirli Reservoir and Hydroelectric Power Plant

Project Type: Design & Build & Operate

Project Location: Rize, Turkey

Owner/Agency: Laskar Enerji Üretim Pazarlama A.S.

Project Start: March 2008

Project End: May 2011

- 500.000 m³ earthworks
- Tailwater canal and dredging works
- Drill and Blast Water Tunnel (L=6570m, D=4.50m Horse-Shoe Lined Tunnel)
- Powerplant: 3 units, each 8,40 MW)
- Total Installed Capacity: 25,20 MW, 126.000,000 kWh/year energy production

WASTE MANAGEMENT: SEWAGE, GARBAGE, PORTABLE TOILETS, RECYCLING

Urban, base or camp waste collection and disposal services are also included among the services are also included among the services of **SERKA QA GROUP**. Its teams serving for various residential complexes in Turkey and in Iraq prioritizing the hygienic standards as well as ISO 14001 Environmental Quality Management Regulations.

We mostly provided as collection and removal services for domestic and industrial solid wastes at construction sites and military bases. In these activities, comprehensive and reliable temporary containers, truck containers and special compactors are utilized.

Chemical hygienic toilets can be provided at construction sites, military camps, special activity sites and in all location where temporary sanitary services are required. In this respect, temporary sanitary services are required. In this respect, temporary WC units are available in all sizes from the smallest unit to trailer size units for serving any number of personnel and **SERKA QA GROUP** carries on its waste management services by a wide fleet of self-owned garbage, sewage and portable john trucks.

“Through KBR, **SERKA QA GROUP** provided Turnkey Waste Management Services for U.S. Military for several years in Iraq. These services included delivery and placement of dumpsters, daily gathering of waste materials and transporting them to the designated waste disposal points, chemical toilet and waste collection services for all cited bases, I found **SERKA QA GROUP** to be very sufficient, proactive and always on top of their business Carl Busby - Snr SCA H Sites

EQUIPMENT AND VEHICLE LEASING

The only way you can fully commit to any project, large or small, is if you have equipment to do it. We own and operate all our heavy lifting and earth-moving equipment. We have the diversity in our fleet to meet the specific equipment needs the project really requires. This gives us the ability and capacity to complete the most demanding of our project. Many contractors claim to have significant lifting and earth-moving capabilities, but do not own any equipment.

This requires them to rent or lease their fleets often limiting their ability to complete time sensitive projects. We, however, have significant repeat customers, because we do not own the iron and equality important to have management and operator personnel to successfully undertake the demanding projects. All out heavily services offered, the Company can also provide short term leases on daily, weekly or monthly basis with onsite support subject to availability.
